

CITY INTELLIGENCE.

THE KNIGHTS.

They Start for New York.—The Parade. At the Masonic Hall last night a grand banquet was given to the members of Allegheny and Ottawa Commanderies, Masonic Knights Templars, who are to visit Europe. This morning, at 10 o'clock, St. John's Commandery, one hundred and fifty strong, assembled at National Guards Hall, and then proceeded to the Grand House, where they formed as an escort to the visiting Knights. The march was down Chestnut street to Third, down Third to Walnut, and out Walnut to the New York Depot, where they took a special train to New York.

The following programme, amounting to 18, will be interesting to their many friends:—

- Cork, Ireland, Imperial Hotel, June 12, 1871.

The collection this month is large and beautiful, and among the curiosities shown will be that of a plant from Central America in which the flower stem is four feet long.

ACCIDENT TO GENERAL BAXTER.—General D. W. C. Baxter is very ill at present, at his residence. Recently he has had much blood from profuse hemorrhages of the lungs, and is suddenly becoming insensible and fell on his face to the pavement, fracturing his jaw in three places, and otherwise injuring himself.

TO FISHERMEN.—A meeting of the fishermen of Philadelphia will be held at Fishermen's Headquarters, Richmond street, Kensington, tomorrow evening, at 8 o'clock. Subjects of vital importance will be submitted. Addresses will be made on the occasion by Captain L. S. Cropper and others.

N. Y. MONEY MARKET YESTERDAY. From the N. Y. Herald.

"The statement of the public debt issued by the Treasury Department shows a reduction for May of \$4,450,000. The total debt, less cash in the Treasury, is \$2,289,134,184.

"There was no essential change in money, which still stands at 100 per cent. on stocks and 25 per cent. on Government bonds, with the pressure to favor the latter securities. Commercial paper averaged 5 per cent. discount for strictly first-class names. Foreign exchange was steady, but quotations remained nominally the same.

"The dealings in the Gold Room give evidence of the gradual decline of the price of gold. The premium, although the progress to-day was but moderate. Operations were, apparently, commenced with a bid for the million of gold offered by the Government, and 11 1/2 was bid for the entire amount. A few bids were filed for smaller amounts, but the price got over \$100.00. With this as a basis, they returned to the Gold Room and before nightfall succeeded in raising the price to 119 1/2-120, the quotation at the close standing at 120 1/2-121. While there can be little doubt of the ultimate fate of any such movement, it may have strength enough just at present to mark the price of gold up five per cent.—a result more easily attainable at this time when the exports of cotton are reaching the minimum.

"The annual primary election for delegates to the various conventions will be held on TUESDAY, June 13, between 4 and 8 o'clock P. M., at the same places. All vacancies in election divisions of the election or registering officers will be filled by the members of the Executive Committee of said division, in conjunction with the remaining election officers; and where new election divisions have been created, the election of officers and members of the Executive Committee to be appointed by the members of the Executive Committee and the election officers of the old division to which said new division originally belonged.

Due notice will be given of the places of meeting of the various conventions, and the persons selected to temporarily organize the same.

AFFAIRS AT THE CAPITAL.

Mr. Fish and the Cabinet.

The Resignation Not Yet Accepted. Southern Outrages Investigation. Government Expenses for May. Death in the Mines. Killed by Fire Damp. Accident to Bishop Weed.

FROM WASHINGTON. (BY ASSOCIATED PRESS.)

RAID ON A MENAGERIE. A Tribe of Guileless Savages Borrow an Elephant for the Purpose of Making a Grand Midnight Procession—How the Festivities Terminated.

THE INDIAN VILLAGE OF POTTAWATOMIE, in Kansas, was the theatre of an intensely exciting occurrence on the night of May 31. The menagerie and circus of old John Robinson had exhibited, to the great delight and astonishment of the untutored red man. The astonishment and curiosity were great when the gigantic proportions of the elephant Emperor burst upon their view. Everything passed off quietly.

THE EXPENSES OF THE GOVERNMENT for the month of May are ascertained to be over seventeen millions. A large amount was for the payment of pensions.

THE KUK-KLUX COMMITTEE examined as witnesses to-day ex-Senator Warner, of Alabama. His testimony related chiefly to the outrages committed by the Ku-klux in Alabama at the election a year ago. There was nothing new in it. James L. Orr, of South Carolina, will be examined to-morrow. There is a proposition before the committee to send a sub-committee into South Carolina to take evidence. This is opposed by many members of the committee on the ground that witnesses testify they would not be safe.

THE EXPENDITURES OF THE GOVERNMENT, during May, were as follows:— Civil and miscellaneous and foreign interference, \$5,167,831; War Department, 3,820,913; Navy Department, 2,717,909; Interior—Pensions and Indians, 6,024,196. Total, \$17,729,849.

THE SECRETARY OF THE TREASURY has decided that vessels built in the United States for foreign nations are not required to be inspected under the United States inspection laws.

THE FISHERY QUESTION. OTTAWA, June 2.—The Times (Government organ), speaking of the Washington treaty and explanations expected from Sir John A. Macdonald, says:—"The Premier considers that the time for explanations has not yet arrived. He says, until the treaty is ratified by Her Majesty the commission still continues to exist. Until it is disposed of, public discussion on the negotiations at Washington would be obviously improper. With the ratification of the treaty the powers and duties of the commissioners will cease. Our Premier can then without impropriety make such explanation as he may deem necessary."

"Mean while the people of Canada may rest satisfied with the assurance that the reservation of the fishery articles for the apprehension of our Legislature is not a mere formal one; that it is quite open to the Parliament of the Dominion to deal with these articles in such a manner as it thinks most likely to be advantageous to the people of this country. Neither the Government of Canada as a whole, nor Sir John Macdonald as first minister, are committed to the treaty. They have taken care to secure to themselves the most complete freedom of action in the matter."

HEAVY ROBBERY. The largest dry goods store in New London, Conn., was robbed on Tuesday of \$11,000 in money and goods. The burglars were arrested at Greenport, L. I., and the goods and part of the money recovered.

THE NATIONAL INSURANCE CONVENTION. NEW YORK, June 2.—The Insurance Convention adopted a resolution asking the several State Legislatures to authorize officers having charge of the administration of insurance laws to make use of such blanks for annual statements as the convention shall adopt.
